

FATHIMATHUL SAHALA

FULL STACK DEVELOPER

Software Developer with a BSc in Computer Science and nearly 2 years of experience in PHP development, specializing in Laravel, MySQL, and REST API integration. Trained in full stack development with strong skills in Python (Django), React, JavaScript, Bootstrap, and HTML/CSS. Skilled in frontend development with a strong eye for UI/UX design, capable of creating clean, responsive, and user-centric interfaces. Collaborative, detail-oriented, and eager to contribute to design-driven, innovative teams.

WORK EXPERIENCE

 **Vega Business Software.** Kannur | Kerala
PHP Developer | 01 Dec 2023 - 31 May 2025

Vyapari Vyavasayi – Chitty Management Web Application

Tools: PHP, Laravel, MySQL, jQuery, HTML/CSS

- Built a complete web app for chitty collection, member registration, and subscription renewal.
- Developed user-friendly dashboards equipped with powerful filtering tools and ready-to-export report generation.
- Improved admin efficiency and tracking with real-time data monitoring.

Appointment Booking System

Tools: PHP, MySQL, jQuery, Bootstrap

- Created a responsive appointment system with shift-based token generation.
- Used stored procedures for real-time slot availability.
- Simplified booking and reduced manual tasks.

POS Interface – Responsive Point of Sale System  [LinkedIn](#)

Tools: PHP, jQuery, Bootstrap

- Designed a responsive POS with product grid, category filters, and live cart updates.
- Optimized for mobile and desktop with touch-friendly UI.

 **G-tec Computer Education.** Kannur | Kerala
Software Developer Trainee | 01 Jul 2023 - 31 Nov 2023

Admin Portal

 [GitHub](#)

Tools: Django, HTML, CSS, JavaScript

- Built an admin portal with manual login authentication.
- Implemented customer and invoice modules with list, create, edit, and delete functionality.
- Designed REST APIs using a single endpoint for list/create, with dynamic field configuration.
- Followed a modular, scalable backend structure for easy future expansion.
